

Slime Trades MVP v1.0

Mission

Help traders improve emotional discipline before, during, and after trading through structured self-assessment, journaling, AI coaching, and performance reflection.

The MVP is designed to validate one core hypothesis:

Will traders pay for tools that improve emotional discipline and trading consistency?

Target Users

- Retail Forex Traders
 - Prop Firm Traders
 - Index Traders
 - Gold Traders
 - Developing Traders struggling with psychology
-

Core Features

1. User Accounts

- Registration
 - Login
 - Logout

- Enhanced Analytics
- Community Features
- Advanced AI Coaching

Technology Stack

Frontend:

- Next.js
- TypeScript
- TailwindCSS
- shadcn/ui

Backend:

- FastAPI
- Python

Database:

- PostgreSQL
- pgvector

Deployment:

- Vercel
 - Railway / Render
 - Supabase
-

Guiding Principle

Slime Trades is not a trading signal service.

Slime Trades is a trading psychology and discipline platform designed to help traders make better decisions through self-awareness, reflection, and emotional control.
